

Real-Life Pong is the Best Possible Game To Have In Your Rec Room

Popular
Mechanics

The table replicates the same experience you might remember from playing the digital Pong back in the day. Loaded with retro sound effects, bouncing lights, and staying true to the original game mechanics.

GAME

CLOCK

The table has a built in LED clock that doesn't only show time, but also provides a gentle light for your room, when the table is not in use.

Everything's more fun with your favourite tunes, even Pong. That's why we built in a bluetooth speaker that can play your favourite music with or without muting the game sounds.

MUSIC
STREAMING

USB
CHARGE x 4

Whether you're gathering around the table for an epic Pong tournament, or just catching up with friends, everyone can make sure their smartphone is charged with 4 built-in USB ports.

TABLE

Turn it off and set it on standby. Close the custom designed lids and you get a neat and retro looking coffee table.

Today with most entertainment products being quite isolating, this Atari Pong Table is an embodiment of turning back the time and bringing back the personal side of games.

Developed as a tribute to the Generation X and its most iconic game, this table brings together the high-tech mechanical engineering of today and everyone's beloved game from the '80s.
